1 Beneficiaries involved

Task leader: IRTA

Participants: all partners.

2 Introduction

The project is hosting a variety of dissemination events.

The specifics of these events corresponds to the planned work and results as they become available and defined in the Dissemination Plan (WP5.2) at the beginning of the project and updated throughout the project. Furthermore, **partners may** present the project and their research results at **specific and popular science conferences, science days etc.** once it is clarified that sensitive IP (e.g. with patent potential) will not be prematurely disclosed.

3 Description of the Method of implementation

It has been followed the methodology described in deliverable 5.2 part 3.

4 Results

The following table registers the events executed during the project. It is also justified why some of the events have not been performed, and why others have been added or modified according to the planned events in Dissemination Plan (D5.2).

The current table shows events executed until the yearly delivery month (M12, February 2016). The remainder events planned according to D5.2 are described in a lightly writing and they will be updated in next deliverables.
